MCB4905 Undergraduate Research

Students must be a Microbiology and Cell Science major and have a minimum GPA of 3.0 in order to enroll in MCB4905. The student must have the approval of a faculty mentor before registering. The research project, duties and research performance criteria for the course are arranged with the faculty mentor. For a more complete description of undergraduate research please view the following web link: http://microcell.ufl.edu/research/opportunities_undergrad.shtml.

General Departmental Policies: Research must be conducted in a research laboratory setting. The faculty mentor does not necessarily have to be within the department of Microbiology and Cell Science. Clinical research is inappropriate and not permitted. This course may not be utilized for fulfillment of required Microbiology and Cell Science departmental elective credit hours. Students may not register for this course if they are receiving any financial compensation for the research.

Note: A registration form which contain a brief description of the research with the faculty mentor’s signature each semester of registration. This form can be obtained from the Departmental Office.
