ZOO 4232 HUMAN PARASITOLOGY
FALL SEMESTER, 2023
Hybrid
In-person in TurL005 and Distance
MWF 8:30 – 9:20 am

INSTRUCTOR: Dr. PETER KIMA, Micro. Cell Science Building, Room 1005, 392-0384. Email: pkima@ufl.edu

Credits: 3

Students are required to have access to a computer. All class materials will be displayed in the course website on canvas. Exams and quizzes will be accessed through the course website.

• Office hours – Tuesdays 3 -5pm

Peter Kima is inviting you to a scheduled Zoom meeting.

Topic: ZOO4232 office hours

https://ufl.zoom.us/j/96816372051?pwd=MTJMMndXOHiXOHR7TVaWh6QTM3aHZIZz09

Meeting ID 968 1637 2051
Passcode 616715

Course Website The course website on canvas contains pertinent information on the course. The website is subdivided into 3 pages:
**Lectures**: Most lectures will be delivered in in-person class sessions. The lectures will be recorded and made accessible to all students. Some lectures will be pre-recorded. Here is the zoom link to access lectures synchronously.

You are invited to a Zoom meeting.

When: Aug 23, 2023 08:30 AM Eastern Time (US and Canada)

Register in advance for this meeting:

https://ufl.zoom.us/meeting/register/tJAvf-CgqT4tG9Vb5MhRyyLjFjdqvT_DSq3n

After registering, you will receive a confirmation email containing information about joining the meeting.

Meeting ID 942 8987 5711

Passcode 994211

All recorded lectures will be placed in a library of recorded lectures with links in the Lectures module. Powerpoint presentations for each lecture (saved as pdf) will be posted in the 'Lectures' module. **Exam questions will be extracted from material in lectures.**

**Lecture-associated readings**: The Lecture-associated module will contain insightful case reports of infections as well as short discussions of useful topics. The material in the Lecture-associated module is intended to reinforce the course objectives and to enhance your overall understanding of parasitism and host-pathogen interactions.

**Assigned readings**: Assigned readings module will contain recent review articles or primary source articles. You will be assigned case reports, primary papers and review articles to compliment the concepts discussed in lecture. You will be expected to gain a detailed understanding of the assigned readings. The assigned readings will have some annotations to help enhance your understanding of the articles. Teaching Assistant(s) will be available to discuss the readings with you. **A quiz with at least 10 questions will be extracted from the assigned readings. You will have up to 10 days to complete the assigned readings and quiz.**
Scope: This course will present information concerning parasite life cycles, biology of host-parasite relationships, vectors of parasites, epidemiology, methods of diagnosis, prevention and control of parasitic infections of public health importance.

Objectives: The student is expected to

- obtain a detailed understanding of the life cycle patterns of major parasites of importance to humans.
- Appreciate the cell biological aspects of the biology of these parasites and host/parasite interactions.
- Obtain some understanding of the host immune response to these infections as presented in lecture, the assigned textbook and suggested reviews.
- Learn the epidemiology of the diseases associated with these parasites.
- Become familiar with Vectors of parasites; vector-parasite relationships.
- Understand strategies to control or limit their effects on humans.
- Gain a basic appreciation of significant unresolved questions relating to some of these parasites and their relationships with humans.

Class Attendance: Class attendance is discrentional. Gainesville students are encouraged to attend in person lectures. However, all material will be recorded and made available to everyone.

Exams and quizzes: There will be 4 proctored class exams.

Gainesville students are encouraged to take the exam in person at the scheduled class time. Alternatively, students can take the exam proctored through ProctorU. The exams will be proctored by ProctorU. Each student will schedule a time to take the exam on the exam dates in the syllabus. Each exam will be available for 2 days. Each student is expected to have sufficient battery life to last for the entire 50 min exam. Please note the exam make-up policy below.

Quizzes:

There will be 2 types of quizzes.

Type 1 quizzes will be extracted from lectures. Following lecture blocks, quizzes extracted from those lectures will be made available. You will have 7 to 10 days to complete each quiz. Students are expected to work independently.

Type 2 quizzes will be extracted from the assigned readings. Availability of the assigned readings will be communicated by email to all students. Type 2 quizzes will be ‘open book’. You will have 2 tries for each quiz. Only your higher score will be recorded.
Although the quizzes are ‘open book’, students are expected to take them independently.

**Grading:**

Students in this class will be graded based on Exams and Quizzes.

There will be 4 exams each worth 15% of the final Grade (Exams will be worth 60% of your grade). Quizzes will add up to 40% of your grade (Type 1 quizzes will be worth 20%; Type 2 quizzes will be worth 20%) of your final grade.

**No exam make-ups:** Exams are available over a 2-day period and can be taken from anywhere that has accessible WIFI. Make notice of exam dates in the syllabus and make appropriate arrangements!

You have 7 or 10 days to complete each quiz. Please make every effort to complete your quizzes and exams at scheduled times.

Letter grades including minus grades will be determined solely from scores on exams and quizzes. The point cut-offs for letter grade assignment will be posted after the second exam.

IMPORTANT NOTES

Academic Honesty: As a result of completing the registration form at the University of Florida, every student has signed the following statements: I understand that the University of Florida expects its students to be honest in all academic work. I agree to adhere to this commitment to academic honesty and understand that my failure to comply with this commitment may result in disciplinary action up to and including expulsion from the University.

University of Florida Counseling Services: On-campus resources are available for students having personal problems or lacking clear career and academic goals that interfere with their academic performance. These resources include:

1. University Counseling Center: 301 Peabody Hall, 392-1575, personal and career counseling.
2  Student Mental health: Student Health care Center, 392-1171

3  Sexual Assault Recovery Services (SARS): Students Health Care Center, 392-1161, sexual counseling.

5.  Consult resources for students on your campus (Distance)
